Business Travel News – BTN (New York, NY) has ranked Utah-based **Hess Corporate Travel** as the 26<sup>th</sup> largest business travel agency in the United States. BTN, the nation's most widely read news and research periodical for travel managers, compiles its rankings from independent third-party sources and publishes its Annual Business Travel Survey each June.

Hess Travel took over management of all Morris Murdock Business Travel accounts in 2009, making Hess's combined operations among the largest in the nation, with customers in many parts of the country. Hess Travel is affiliated with American Express Travel.

"We are pleased with our continued growth. It seems that tough times have encouraged many companies to seek professional help in managing travel and its very significant cost." said Alan H. Hess, President of Hess Travel.
